Scrimshaw Crayon Art

Scrimshaw is the technique of carving designs on the surface of bone, ivory, or baleen. Create scrimshaw-inspired art by etching designs on paper!

Materials Needed:

White paper, crayons, toothpick or paperclip.

Caution Toothpicks and paper clips can be choking hazards. Closely supervise children during this activity.

Instructions:

Step 1:Cut a piece of white paper in half.

Step 2:Prepare your paper:

For Black-and-White A: Color the paper with black crayon. Fill in all the white spaces, so that as little white as possible shows through the black.

For Ranbow Art: Cover a sheet of paper with different colored crayons. Use one color, or use several and make a design. Then completely cover the paper with black crayon, so that no colors show through.

Step ï: Make a designUsea toothpickor paperclip toetch a design into the blackcrayon. Experiment with different patterns. If you colored the paper with rainbow crayons first, the colorsillwshow through as youscrape the blackaway.

Hint: For young children, prepare the paper in advance. Older children may enjoy coloring the paper before making their designs.
