

is a new outreach effort by OGCA. The idea behind is to convey tips, tricks and other helpful information around the area of research administration. Our goal is to post on (almost every) Tuesdays. If there is something you would like to see covered on , email: UAF-GCReATE@alaska.edu. For more Tips visit [OGCA website](#).

Updated NSF C&P FAQs

NSF released an [updated FAQs](#) for the new Current and Pending Support requirements included in NSF 20-1 PAPPG. A summarization of the updated clarifications is below.

#10: Senior personnel do not need to identify any mentoring activities in their C&P that take place as part of their regular appointment. However, in-kind support for mentoring undergraduate or graduate students needs to be included in the C&P.

#11: The term "research endeavors" refers to the endeavors of the particular individual. The C&P includes all planned, pending, and current support provided directly to the individual or to them through their organization in support of their individual research endeavors.

#12: NSF is planning to review all FAQs and incorporate additional clarifications as appropriate before posting the 2021 draft version of

the PAPPG for feedback. Feedback should be sent to policy@nsf.gov
