**13. POSITIVE AND NEGATIVE IMPACTS**

*Class modification and positive impact*

The new course (WLF 322) combined a second year course in principles of wildlife management (WLF 201) with a third year course in techniques of wildlife management (WLF 303 W), which is currently known as WLF 222. The new course retains the written assignments from WLF 303 as well as the technical content which allows students to continue to receive the same

**ATTACH COMPLETE SYLLABUS (as part of this application).**

Note: The guidelines are online: <http://www.uaf.edu/uafgov/faculty/cd/syllabus.html>

The department and campus wide curriculum committees will review the syllabus to ensure that each of the items listed below are included. If items are missing or unclear, the proposed course change will be denied.

During the first week of class, instructors will distribute a course syllabus. Although modifications may be made throughout the semester, this document will contain the following information (as applicable to the discipline):

**1. Course information:**

Title,  number,  credits,  prerequisites,  location,  meeting time  
(make sure that contact hours are in line with credits).

**2. Instructor (and if applicable, Teaching Assistant) information:**

Name  Office location  office hours  telephone  email address

**3. Course readings/materials:**

Course textbook title,  author,  edition/publisher.

Supplementary readings (indicate whether  required or  recommended) and

any supplies required.

**4. Course description:**

Content of the course and how it fits into the broader curriculum.

**Prerequisite Courses:** WLF 101 Introduction to Wildlife Science, NRM 101 Natural Resources Conservation and Policy, ENGL F111X Introduction to Academic Writing, BIOL 271 Principles of Ecology

**Required Text**

Braun, C.E. editor. 2005. Techniques for wildlife investigations and management. Sixth Edition. The Wildlife Society, Bethesda, MD.

**Course Objective:** This course applies ecology to the study and management of animals and their habitats. Lectures will discuss management for consumptive and non-consumptive uses of birds.

mammals, reptiles and amphibians. Laboratory classes will demonstrate and provide experience with skills used in wildlife research and management.

**Evaluation**

You are expected to attend all classes. Exams are comprehensive (i.e. all topics to date will be tested) and based on material presented and/or assigned in the lectures and the laboratories. Each exam is 25% of the assessment for a total of 50%. Two writing assignments will be assessed for a total of 50% of the final grade. The first assignment will assess a paper on a practical aspect of wildlife
